self in this court.

The case was tried in this court

out claiming his money.

On August 3, 1921, I wrote to his

In my September, 1921, report under

THE CITY OF NEWARK

New Jersey
Law Department

December 13, 1921.

The Board of Commissioners of
The City of Newark.

Addressed.

Gentlemen:—

Certain matters have come to my attention in the course of the action

of Public Service Railway Company against the Board of Public Utility Commissioners and others, now pending in the District Court of the United States for the District of New Jersey, which I believe it to be my duty as Corporation Counsel to bring to the notice of your Commission.

These matters involve questions of general policy and are of wide reaching effect.

Action with respect to them should not, in my judgment, rest with the Law Department of the city alone, but should be subject of consideration and determination by your Commission.

While, for more than two years there was pending, in various stages, before the Board of Public Utility Commissioners of the State the proceeding to value the property of Public Service Railway Company and to fix just and reasonable rates for transportation over its lines, it was apparent that the State Board had not sufficient funds to subject to adequate test, analysis and criticism the case that was being built up by the company through numerous eminent experts.

Efforts were made from time to time to bring together the municipalities affected, for common action and assumption of cost.

These efforts in large measure failed.

The cities of Newark and Jersey City, however, through the action of their respective Commissioners, co-operated throughout the proceeding and met the necessary cost of procuring and presenting the testimony of experts almost alone.

The result of the United action of the two cities was that the demand of the company that it be permitted to put into effect a ten (10) cent fare failed of approval and that a fare of seven (7) cents with two (2) cents additional for transfer was established by the State Board as just and reasonable, and went into effect.

Through disapproval by the State Board of the demand of the company for a ten (10) cent fare a saving aggregating several millions of dollars annually to the people served by the lines of the railway company was effected.

The benefit of this saving, in good part, due to the expenditure made by the Cities of Newark and Jersey City in procuring and presenting the testimony of experts, accrued to the people of the two cities. It accrued in equal degree to the people of the other municipalities affected whose governing bodies had not seen the way clear to unite in action and contribute to cost.

Immediately after the order of the State Board establishing the fare of seven (7) cents with two (2) cents for transfer become effective, the Public Service Railway Company filed a bill in equity in the District Court of the United States for the District of New Jersey seeking an injunction against the enforcement of the order.

The company, in its bill of complaint, alleged that the rates fixed by the order were confiscatory and violated the Fourteenth Amendment of the Constitution of the United States and that no fare less than ten (10) cents would afford the company a fair return upon the fair value of its railway property.

On the filing of this bill of complaint and accompanying affidavits, ex parte, without notice to the State Board, and without an opportunity to it to be heard, a judge of the United States District Court for the District of New Jersey, on motion of the company, issued a restraining order against the enforcement of the order of the State Board. This restraining order he of his own motion vacated the following day.

The Board of Public Utility Commissioners was alone made defendant to the company's bill of complaint.

Appreciating that the City of Newark had interests at issue in the action which could not be represented by the State Board, and particularly that the City claimed that the State Board had erred in allowing in the value of the company's property various items aggregating many millions of dollars, your Commission directed me to make application on behalf of The City of Newark for leave to intervene in the action.

Application was accordingly made.

Although the City's petition was at first denied, the City of Newark was ultimately admitted as a party defendant together with the City of Jersey City and other applying municipalities.

Affidavits in answer to the affidavits of the company were then prepared on behalf of the Cities of Newark and Jersey City, supplementing the affidavits of the State Board.

The question whether a preliminary injunction should be granted staying the enforcement of the order of the State Board until the final determination of the action, was argued before

a Federal Statutory Court consisting of the Judge of the District Court and two judges of the Circuit Court of the United States. In consequence of the opinion of two of the judges of this court, the other dissenting, a preliminary injunction was issued against the enforcement of the order of the State Board conditioned, however, on the company's exacting no greater fare than eight (8) cents with one (1) cent additional for transfer and requiring the company to sell four (4) tokens for thirty (30) cents, and to furnish a bond for the refunding of overpayments in fare if the company should finally fail in its action.

The opinion and the degree raised, among other serious questions, the question, whether the abnormally high prices of the day for labor and materials must govern in determining the value of the company's property and so the sum upon which it is entitled to earn a return, and the question, whether it is within the power of a Federal Court to assume the function of intra-state rate-making; tie the hands of the rate-making body which the State has set up; prevent such body from discharging the duties assigned to it by the State and so deny to the people of the State the protection against excessive charges which the creation of such body was intended to afford.

Believing that these questions were fundamental and should be speedily determined I filed an appeal on behalf of The City of Newark from the decree granting the preliminary injunction, to the Supreme Court of the United States.

The City of Jersey City and the State Board have adopted a like course.

Application has been made in the Supreme Court to advance these appeals for early hearing.

In the meantime the State Board and the Cities of Newark and Jersey City have filed their respective answers to the company's bill of complaint and the cause is at issue.

An order of reference to a Master to take testimony and report has been made and the first of the hearings has been set for December 15th.

It is apparent from statements of counsel that the company intends to cast aside and ignore the voluminous record made before the State Board and upon which the order of that Board, now attacked, was made.

The purpose of the company to present wholly anew its case in support of its claims for a ten (10) cent fare is manifest.

The protracted and costly proceeding before the State Board is now to be treated by the company as a mere trial-balloon.

If this course is taken, and sanctioned by the Federal Court, as it could not be by a Court of the State reviewing the order of the State Board, the moneys heretofore expended by the company, the State and the municipalities in necessary presentation of testimony before the State Board and which must be met by the people in fares and taxes, will have been futilely laid out.

If this course is taken, and sanctioned by the Federal Court, testimony will need be presented anew by the State Board, and by the municipalities.

It now again appears that the appropriation made to the State Board is inadequate to completely meet this situation.

Counsel for the City of Newark and the City of Jersey City are therefore once more compelled to apply to the Commissions of the respective cities for an appropriation of \$5,000 by each, for employment of experts and to carry the pending action to the beginning of next year.

I reluctantly recommend such appropriation. I know of no other course to prevent what would, in practical effect, amount to a denial to the people of the State of their day in court.

In making this recommendation may I submit for your consideration the following suggestions:

(1) That your Commission direct a memorial to the Governor and to the Legislature of the State, calling attention to the situation herein presented; declaring that in your judgment it is inequitable that the cost of the defence of a State policy, and of its administration, should in great part fall upon two municipalities of the State, in an action in which the issues involve the interests of the people of the State as a whole; and urging the immediate making of a special appropriation to the Board of Public Utility Commissioners, to be at once available, in an amount sufficient, in the judgment of that Board, to prepare and present an adequate defence to the pending action.

(2) That your Commission in such memorial urge the inclusion in the State Budget of an appropriation to

the Board of Public Utility Commissioners of a sum adequate to enable it to meet fully the cost of such investigations as are of general and not merely local scope which it may undertake during the coming year, and so avoid a reoccurrence of present conditions under which one or two of the municipalities whose people are concerned, alone carry what should constitute a common burden.

(3) That your Commission urge upon the Senators and Representatives of the State in the Congress of the United States that they endeavor to secure:

(a) The amendment of the Federal Statutes in such manner as to prohibit the issuance by a Federal Court of a restraining order preventing the enforcement of the rate orders of State Commissions, without notice and without opportunity to be heard.

It is my understanding that protection against ex parte action by the Federal Courts is, under the Federal Statutes, afforded the Interstate Commerce Commission.

(b) The amendment of the Federal Statutes in such manner that in a proceeding in a Federal Court attacking a rate-order made by a State Commission, after hearing, and upon notice, such court shall be confined to the consideration of the record made at such hearing, except where such attack is based upon conditions which have arisen since the order was made.

By some such means alone can State regulation of intra-state rates

through administrative boards be saved, in my judgment, from sinking to the level of a futile but costly gesture.

Respectfully submitted,

Jerome T. Congleton,

Corporation Counsel.

Commissioner Gillen moved that the communication be received and filed, and that the appropriation be made by this Commission, and that the suggestions and recommendations with respect to the memorials to be addressed to the Governor and the Legislature and Congress be concurred in, and that Mr. Congleton be authorized to prepare same.

The roll being called, the motion was declared adopted by the following votes:

Yeas:—Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Commissioner Brennan moved that the title of "An Ordinance to amend section 2, of Article III, of an ordinance entitled: "An Ordinance relating to and fixing the salaries of certain officers and employees of the Divisions of Fire and Police of the Department of Public Safety of the City of Newark," adopted January 22, 1920," be taken for its third reading.

The roll being called, the resolution was declared adopted by the following votes:

Yeas:—Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Commissioner Gillen: In the presentation of the resolution for the purchase of the Elk's Home, I would like to say that the Elks have offered to sell to the City of Newark their present property on Green Street with the idea of going down to Broad Street and purchasing part of the Memorial site from the City on which they intend to erect a building that will cost about \$750,000. They say this building will be one of the finest in Newark and a credit to the City and add materially to the tax ratables. They have offered the property on Green Street at a reasonable figure, but the City did not accept their figures but appointed appraisers who made appraisals different than the Elks made through their appraisers and finally these figures did not agree, but we gave them a slight increase over the average of our appraisers which met with their approval, and I feel we agreed to buy the property at a figure very reasonable in every respect. After the Elks have moved from the property the City can occupy it. There are various departments that might be put in there, such as the Employment Bureau, the Board of Education and the City can make good use of the

property. In the meantime while the Elks are constructing their own building they have agreed to pay to the City of Newark a rental of \$3,000 a year. It will probably take a year to build up the new building on Broad Street. In order to consummate the deal, the City will be obliged to offer at public sale a part of the Memorial site, 100 feet wide by 202 feet, and the Elks are to bid on this property when placed on sale. If other bidders should bid more and the Elks should fail to acquire the property, this agreement provides that either party to the present agreement, either the City or the Elks, may back out of the agreement, in which case the sale of the Green Street property will fail. I merely call these things to your attention in order that you may understand them. So far as the City is concerned, its interests have been protected. If the deal goes through (and I think it will) all the Commissioners know a good deal about it, it will be very advantageous to the City in general.

RESOLVED, By the Board of Commissioners of the City of Newark, that the contract hereto annexed between The City of Newark and K-W. Electric Company, a corporation, for the electrical work required in the erection, construction and completion of one double fire house, to be known as No. 29 Engine House, Bergen Street and Lehigh Avenue, Newark, N. J., dated December 13, 1921, be and the same is hereby approved, and the Director of the Department of Parks and Public Property and the City Clerk of the City of Newark are here-

Ordered filed.

Miami, Fla., 211 No. West 3rd Street,
December 5, 1921.

Honorable Mayor and Commissioners
of the City of Newark.

Gentlemen:—

Having read in the Newark Evening News the intention of opening branch libraries in different sections of the city of Newark, and one in the Ironbound district, as it happens I am in a position to offer a very suitable building in the most desirable section located at #174 Ferry Street between Jackson and Van Buren Streets.

Having been a resident in business in mentioned building for over a quarter of a century, I do not know of a better location and building for a branch library.

The first floor a store 26x100 modern, two large show windows, two large skylights, well ventilated, steam heat, electric and gas lights; on the second floor a large light room with three large plate glass windows to the rear, ladies and gents windows in the rear, ladies and gents lavatory. I believe this floor is 26x40. Stairs to go up from store. The top floor consists of six living rooms which could be improved for some one who would take care of the building for free rental.

The building is leased until May 1, 1922. Should your Honorable Board consider this proposition and if necessary some slight changes I would

gladly do so. While buildings of this kind are in great demand in the Iron-bound district, I would prefer to lease it to the city.

For further information if you so desire, please address to #211 North West 3rd Street, Miami, Florida, until April 1st; after that to 50 Norwood Avenue, Avon-by-the-Sea, New Jersey.

Respectfully yours,

Herman Schlesinger.

Ordered referred to the Library Trustees.

Western Association of Electrical

Inspectors,

175 West Jackson Boulevard

Chicago, Ill., December 3, 1921.

Hon. Mayor and City Council,

Newark, N. J.

Gentlemen:—

The 17th Annual Meeting of the Western Association of Electrical Inspectors takes place January 17, 18, 19, 1922, at Hotel Sherman, Chicago.

You will note from the enclosed Tentative Program that an effort has been made to arrange for a meeting which will be of practical benefit to every Electrical Inspector fortunate enough to attend this meeting. We have so conducted our affairs as to merit the confidence of every municipality in the United States and Canada the accomplishments of the organization seem to bear witness to the fact that this ambition has been achieved.

We are very anxious that your city shall participate in the benefits of the meeting and to that end may be assured in the near future that your city will be represented by your superintendent of Fire Alarm, Mr. Kane.

Yours very truly,

William S. Boyd, Secretary.

Ordered referred to the Director of Public Safety.

The following reports of City Officers were received and ordered filed:

Overseer of the Poor for September, 1921; October, 1921, and November, 1921.

Commissioner Brennan moved to adjourn.

The roll being called, the motion was declared adopted by the following votes:

Yeas:—Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

APPROVED:

A. ARCHIBALD,
W. J. BRENNAN,
F. C. BREIDENBACH,
CHARLES P. GILLEN,

The Board of Commissioners
of The City of Newark, N. J.

W. J. EGAN,

City Clerk.

NEWARK, N. J.,

December 20, 1921.

A regular meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date, in the Council Chamber, City Hall, Newark, at 11 A. M.

Present: Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

The minutes of meeting of December 13th, 1921, were read and approved.

Mr. George Peneck, 726 Broad Street, Newark, appeared before the Board and complained of the blocking of his place of business on Canal Street opposite the Centre Market by stands rented by the Market Clerk and presented the following communication:

Newark, N. J., Dec. 12, 1921.

To the Honorable The Mayor
of the City of Newark.

Dear Sirs:

I wish to call your attention to the following situation and request that this matter be taken up at the regular meeting of your Commissioners, at which I can appear personally.

The street adjoining the south side of the Centre Market is a public street, as such, the City Ordinances require that it be kept open for public traffic and free from obstruction.

This street at and near the intersection of Broad Street during business hours each day, particularly

Saturdays, is blocked by automobiles and street stands set up outside the curb line and blocking up about one half of the width of the street.

I understand that the Market Clerk issues permits to these stand owners.

So far as I have been able to learn this is a public street, is not market property and the blocking up of this street by stands is absolutely illegal.

Unless this street is kept clear, I shall appeal to the Courts and seek to compel the proper action by the City authorities and compliance with the law.

Respectfully yours,

Geo. Peneck.

Commissioner Gillen: These stands which Mr. Peneck says take up part of the street have been there for a long time, and it seems to draw the wagons going through there over to his building. There is another question involved there. The Tax Department finds that the building encroaches on City property and part of the building which Mr. Peneck occupies encroaches on a triangle. However, we are looking into it and we will solve it in some way I suppose.

Commissioner Brennan moved that the matter be referred to Director Gillen.

The roll being called, the motion was declared adopted by the following votes:

F. C. Breidenbach,
W. J. Brennan,
Charles P. Gillen,

Yeas:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

Dr. Wm. G. Hanrahan, 36-A Fulton Street, appeared before the Board with reference to the assessment for the repaving of Fulton Street.

Commissioner Raymond: We have already heard the objections on this Doctor, and the matter was referred to me. I am not ready to report on it at this time without giving it the consideration it deserves. Some time ago when we had a large program for paving, I asked a Committee of my Engineers to make an investigation and report to me the best way to pave these streets. I have a report

from them which is radical, but which I think is right, but I am not prepared to ask the Commission to adopt that report until I have given it further study myself. I see your point about Fulton Street and I think Fulton Street might come in on that report. The matter will not be disposed of until you have had opportunity to hear the report and I will see that you are notified when I make my report.

Commissioner Raymond moved that the report of the Commissioners of Assessments for Local Improvements assessing benefits for the resurfacing of Fulton Street from Broad Street to Ogden Street, be laid over for four weeks.

Herbert, owner of property at 44 Bleecker Street, appeared before the Board and stated his client felt the larger part of the assessment for the resurfacing of Bleecker Street should be placed upon the City at large on account of it being a traffic Street.

Mayor Archibald stated that the property owners had only been assessed 80c a foot and that the Commission had been very generous on this resurfacing.

Commissioner Breidenbach offered the following resolution:

RESOLVED: That the report of the Commissioners for Local Improvements of the City of Newark assessing benefits for the resurfacing of Bleecker Street from Halsey Street to High Street, which said report is hereto annexed, be and the same is hereby in all things adopted, ratified and confirmed and the City Clerk is hereby authorized and directed to file a duplicate of said report in the office of the Comptroller of the City of Newark upon its confirmation for collection.

The roll being called, the resolution was declared adopted by the following votes:

Yeas:—Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Commissioner Brennan:—I would like to ask the privilege of saying a few words. Of course, you are all aware of the criticisms coming upon the City and the Department of which I am the head of during the past week or so, so I feel I should say a few words, and I would like the privilege of reading a few notes which I have jotted down.

I have asked the privilege of addressing you this morning because of the newspaper criticism which has been aimed at me of late. A man in

public office must expect criticism, informed and uninformed. I could not hope to be and have not been the exception to the rule. Heretofore I have passed public criticism by in silence, but have nevertheless profited by it when on consideration it seemed to me to be justified. I maintained such silence at the risk of misunderstanding, in accordance with the general policy established for the conduct of the Department.

One newspaper, however, has not seen fit to confine its criticism to my official acts but has made false statements with reference to my personal habits which I feel I cannot permit to go unnoticed and without my unqualified denial. I have lived in this city during the past twenty-seven years and have traveled from one end of the United States to the other and am willing to have my private life examined into minutely by any fair and impartial person and stand by the result.

It has always seemed to me that the flare of trumpets of publicity was not the best means of preventing, detecting or suppressing crime. Experience has justified this judgment. Only recently efforts to make out a case that would stand the test of prosecution were defeated by publicity due to misunderstanding.

A situation has now arisen which demands, in justice to myself and the members of the department, that I also put aside the policy of silence as to official action for the moment. An effort is being made to picture the city as a sink hole of vice as the result either of my deliberate inaction or incompetency. The pictured conditions do not in fact exist. The city is as free from vice and crime as any

cosmopolitan community can be, as long as human nature is what it is.

The alleged wide-spread conditions could not exist without a wide-spread condition of rot throughout the Department. Of such a situation I would know. The Department is sound. Its members are as faithful a body of men as has ever been assembled. True, there are weak links in the chain. These I have from time to time uncovered and removed. Others may be expected to be disclosed. Men are not perfect. I have always welcomed cooperation and am always ready to receive and act upon intelligent and advised suggestions. But the suggestions must be definite and not merely vague statements which cannot be traced or verified.

I cannot delegate my responsibility to any individual member of the press, or group, however well-intentioned. I stand ready to disclose the record of work done and planned to any responsible individual or group of individuals and have no fear of their judgment.

In the meantime, I am going on, discharging my duties to the best of my ability, insisting upon a like performance of duty by those under me and cooperating with the officials of the State and Nation as heretofore, maintaining silence, committing no breach of confidence, although misunderstanding results. The end will, I believe, bring complete justification.

W. J. Brennan.

Commissioner Brennan:—Mr. Mayor, I would like to have my statement relative to this made a matter of record in the minutes of the Commission, and am presenting it for your consideration.

Mayor Archibald:—Are there any remarks?

FIRST DISTRICT COURT

CITY HALL

Cecil H. MacMahon,

Judge.

Newark, N. J., Dec. 20, 1921.

Honorable Board of Commissioners,

City Hall, Newark, New Jersey.

Gentlemen:—

I am submitting to you forms of resolutions concerning a desired increase of salary by Mr. Hecht and Miss Brede, both whom are employed in the office of the Clerk of this Court. Mr. Hecht comes under the statute concerning the salaries of the assistant clerks of this court, and has been in the office for nearly three years, the three years being up next March. He asks an increase of \$200. per year. This will give him the maximum salary allowed by the statute.

Miss Brede does not come under the statute and is assigned to this court, technically as a stenographer. Her work as stenographer is very small compared with the rest of the work she does as an assistant to the Clerk of the Court. She is getting \$1,380. per year and desires an increase to the maximum of \$1,680. Miss Brede has been in the office for nearly eight years.

I have been informed that Mr. Hecht has been classified by a Committee and that he was put in such a class that allowed a yearly increase of \$100. A recent act of the Legislature fixes Mr. Hecht's salary as assistant clerk at \$1,600. per annum to \$2,000. per annum, and it is my

opinion that since he is a statutory officer he should not come under the classification plan followed out in the increases allowed or which may be allowed to City employees.

In reference to Miss Brede, I understand that she is in a classification which allows a yearly increase of \$100. until her maximum is reached. If this be so she should receive her first increase of \$100. on April 1, 1921.

Both Mr. Hecht and Miss Brede are very competent, are diligent attentive to their duties and have no doubt contributed largely to the growth of the business of this Court by their manner towards the attorneys and others who have business with the court.

In this connection permit me to call your attention to the fact that including December, 1920, to and including November, 1921, the receipts of this Court for the twelve months amounted to \$24,293.33, the expenditures were \$6,872.07, leaving a net profit for twelve months of \$17,421.26. The present salaries amount to about \$15,000., leaving a net profit of about \$2,000. to the City, so that in endorsing the application of Mr. Hecht and Miss Brede, and urging your Honorable Board to favorably consider their applications, and to include in the budget for the coming year, a sum sufficient to pay the increase, I feel that no additional burden is being placed upon the taxpayers, the moneys for increases coming out of the profits from the business of the Court.

Yours very respectfully,

Cecil H. MacMahon.

Dear Sir:—

THE J. L. MOTT IRON WORKS
New York

December 9, 1921.

Hopper & Co., Architects,

116 Market Street,

Newark, N. J.

Gentlemen:—

We would be pleased to furnish you with an estimate for the tiling in Municipal Building, Newark, N. J., and send you herewith as our best approximate price for selected first quality 6x6" white glazed wall tile with moulded cap and 6" sanitary tile base to be set in place complete including the furnishing of cement and sand scratch coat for \$1.75 per sq. ft.

We will, if desired, furnish a certificate from the Factory as to the quality of all tile furnished.

Yours very truly,

THE J. L. MOTT IRON WORKS,

C. E. Ensign,

Tile Department.

Commissioner Gillen:—That involves quite an additional expense, but it seems to be a necessity to substitute for the interior walls tile instead of buff brick which had been specified. The change will involve \$42,000. additional, but it has been found that there should be a glazed or tile surface in order to have clean walls.

Mayor Archibald:—I do not like these changes after bids have been received.

Commissioner Gillen:—I do not like them either, but it is a thing you need and it is better to have it done now. It means a difference in the cutting of the stone in all the walls and the stone will not be so deep if you use the other kind of bricks. You will have other changes coming up from time to time. For instance you will have a comfort station and there has been no provision made for that. Another thing is a power plant and I think we will have to have our own power plant. I think, Mr. Mayor, it would be well if we could arrange a conference of the Board to take up all these changes. These, however, we will have to go ahead with on account of the cutting of the stone, but all the other matters we can take up together and discuss them.

Mayor Archibald:—I think it would be very much better to take them up all at one time as soon as possible.

Second District Court

Newark, N. J., December 23, 1921.

Hon. Wm. J. Egan,

City Hall,

Newark, N. J.

Dear Sir:

I enclose several resolutions that are indicative of what I deem should be the salary of those mentioned therein. All salaries suggested are within the Civil Service Standardization rulings.

I call your attention to the fact that in the case of Miss O'Connor the increase sought for is one of Two Hundred Dollars (\$200.), and in that of Mr. Dowling the increase sought is One Hundred Dollars (\$100.). Both are worthy of such an increase due to the amount of work involved.

In the case of Simon Fleischer who is Interpreter for both the First and Second District Courts, the in-

crease that I would advise would be one of Two Hundred and Fifty Dollars (\$250.) from each court.

Mr. Fleischner is a married man and at this time receiving but fifteen hundred dollars (\$1,500.) from both courts; that is, seven hundred and fifty dollars (\$750.) from each court. That salary is wholly inconsistent with the work that he performs. He speaks six languages and is engaged during the entire week in both the First and Second District Courts. Without a doubt, an increase such as I suggested should be granted him.

I have not drawn the resolution in this case, because I leave to your judgment the form that is advisable in this instance. His salary appears on the payroll of both Courts, each court bearing half.

I most heartily urge that the City Commission grant the increases advised.

With the compliments of the season,
I remain

Yours truly,

Louis R. Freund,

Judge.
